Notice on Commencement of Power Selling at Shimada Solar Sharing Power Plant

We are pleased to notify completion of system interconnection and commencement of power selling since today at our group's first solar sharing power plant of approximately 406 KW, of which construction was completed in Shimada City, Shizuoka Pref., as released in "Notice on Securement of Land for Solar Sharing by Lease of Fixed Asset" as of November 9, 2017, and of which progress was thereafter notified as needed. Our group will continue to exploit the specialty of the community and will endeavor, not only to reduce CO₂, but also to contribute to the local area and the society, by accelerating the community-based renewable energy plant development.

1. Overview of the Power Plant

(1) Location	Kishi-cho, Shimada City, Shizuoka Pref.
(2) Business operator	GP Energy Co., Ltd. (subsidiary of our 100% consolidated subsidiary)
(3) Site area	Approx. 4,626m ²
(4) Power generation capacity	Approx. 406kW
(5) Power selling price (fixed for 20 years)	36 yen / kWh (tax separately added)
(6) Revenue from power selling (as planned)	Approx. 17,400,000 yen / year
(7) Estimated power generated in the initial year (as planned)	Approx. 484,000kWh

2. Future prospect

The influence over the performance of the current consolidated accounting year is estimated as minor because the full-scale power selling revenue at this Power Plant will start in the next period.
