Notice on Power Selling of Extension of Nagasaki Prefecture, Goto City, Kojindake Solar Power Plant

Please be informed that 500kW extension construction of Nagasaki Prefecture, Goto City, Kojindake Solar Power Plant (hereafter “Power Plant”) owned by our consolidated subsidiary company, GP Energy 2, Co., Ltd. has been completed, and that today the system interconnection was completed and power selling was started.

1. Overview

The Power Plant is a largescale megasolar power plant of approximately 5.3 MW interconnected with special high voltage which is the first system in our group, and has been operating at a good rate since starting of power selling on March 30, 2018. Extension construction of approximately 500kW of solar panels has been completed, and today power selling of the extension parts was started for the fixed purchase price of 36 yen, which expanded the entire power generation size to 5,847kW.

Our group will continue to engage in CO₂ reduction and the measures for global warming, and promote social contribution including reduction of environmental burden.
