Notice on Development of Small Wind Power Plants by Co-financing

As announced in the “Notice on Development of Small Wind Power Plants by Co-financing” dated February 14, 2022, our consolidated subsidiary, GP Energy I, Limited Liability Company has proceeded with development of 10 units of small wind power plants in Oga City, Akita Prefecture. Please be informed that construction of 2 units of such small wind power plants has been now interconnected.

1. Overview

GP Energy I, Limited Liability Company, our consolidated subsidiary, has proceeded with development of 10 units of small wind power plants in Oga City, Akita Prefecture. As announced in the “(Progress of the disclosed matters) Notice on Development of Small Wind Power Plants by Co-financing” dated July 19, dated July 20, and dated July 21 2022, 6 units of such a small wind farm were interconnected and 2 units were prepared for interconnection. Now we are pleased to inform you that construction of the 2 units have been completed. As a result, all 10 small wind power plants that were under development have been interconnected. Our group will continue to work on ESG activities and SDGs to achieve the decarbonizing society.

2. Project overview

- (1) Location: Oga City, Akita Pref.
- (2) Business owner: GP Energy I, Limited Liability Company
- (3) Scheduled number for development: 10 units
(small wind power by GHRE, 19.2 kW/unit)
- (4) Progress of completion and interconnection:
 - May 31, 2022: 3 units completed (2 among which have been interconnected)
 - July 5, 2022: 7 units completed
 - July 19, 2022: 2 units interconnected
 - July 20, 2022: 2 units interconnected
 - July 21, 2022: 2 units interconnected
- (5) Annual power generation (forecast): Approx. 745,000kWh

3. Future perspective

An impact on our consolidated business performance, etc. from interconnection of the plants of concern is minor.
