Tamagawa Holdings, Co., Ltd.

Notice on Qualified Institutional Investor

We have been registered with the Financial Services Agency as a qualified institutional investor since 2013, and have been engaged in the acquisition, holding, management and investment of securities.

The expiration date will come on August 31 of this year, but we are pleased to announce that we will be in contact with the Kanto Local Finance Bureau safely on July 3.

The effective date is September 1, 2019.

Going forward, we will continue to develop our businesses in the renewable energy business and the electronic and telecommunications equipment business based on the two important fields of "energy" and "telecommunications". Through our investment businesses, we will strive to realize the three "re" of our corporate philosophy of "corporate regeneration," and "renewable energy," and "reinvestment of the new cash".
